

2020 NETWORK ANNUAL REPORT

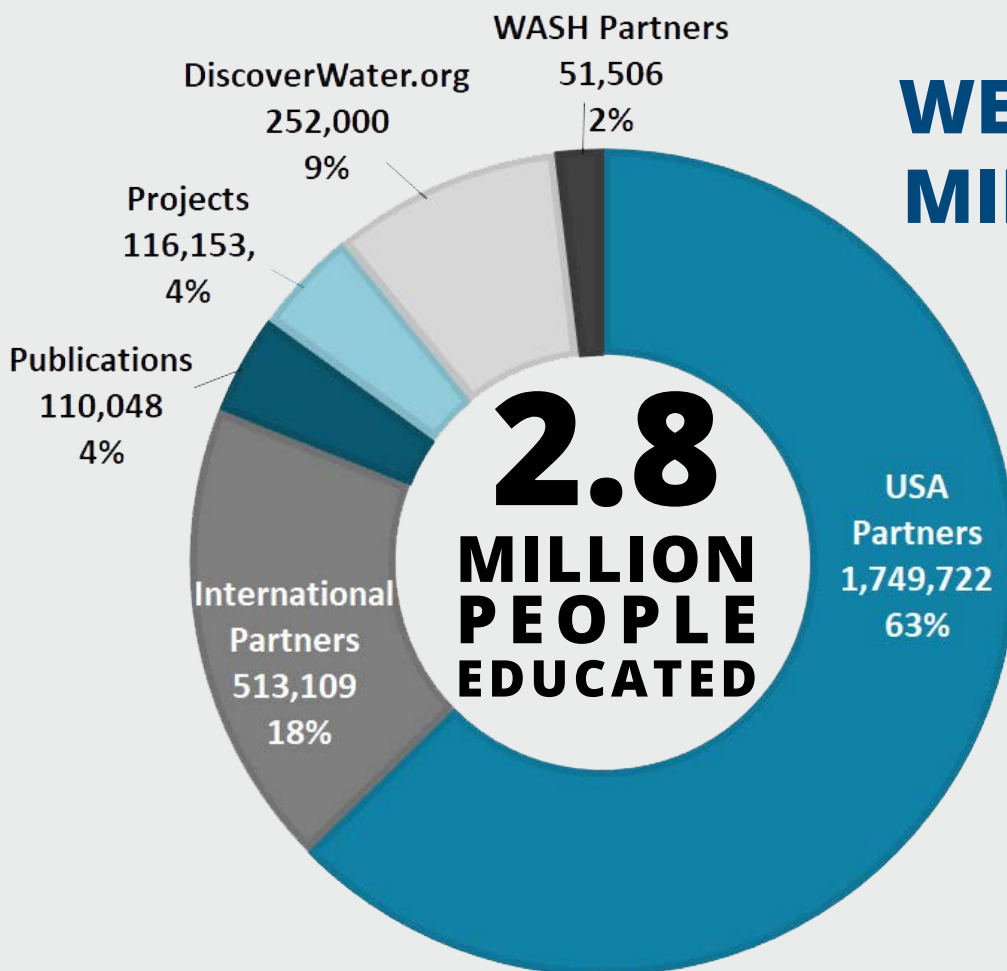

PROJECT WET FOUNDATION

2020 was a difficult year for everyone and especially for educators. We worked hard to reimagine our activities and provide training resources for our network. We never imagined the rush on virtual offerings when created our online training in 2018. We did our best to accurately portray our impact in 2020 using the data we had available. We are proud of all of our partners, facilitators, educators and students this year.

WE EDUCATED MILLIONS

We increased our reach by 300,000 people and 25 countries in 2020 thanks to our digital presence during the pandemic and our partners' use of the virtual trainings.

Our network partners accounted for 81% of our reach in 2020.
