

Obstacles for Students

Water Resource Issue	Obstacle for students
Drought	Pass under a rope.
Floods	Step over a rope.
Pollution	Circle around a chair.
Climate change obstacles	
Increased water temperatures	Hop on one foot
Changing precipitation patterns (such as intensifying hurricanes)	Hold one hand on head to "shield" from the storm.
Wetlands becoming dryer	Stomp from one manila folder or piece of paper to another (or any other product that is like a stepping stone).
Saltwater intrusion	Try to hold breath while in this section, symbolizing how freshwater fish interact with saltwater.
